

Alastair Smart (Ref AS)

This archive collection has not yet been catalogued. The material relates almost exclusively to research undertaken for the following publication: Smart, A. and Ingamells, J. (ed.) (1999) *Allan Ramsay: a complete catalogue of his paintings*. New Haven; London: Published for the Paul Mellon Centre for Studies in British Art by Yale University Press.

The material was collected by Smart, but organised by Ingamells both in the process of writing the text and also post publication. The material is now arranged in **7 bankers' boxes**, so this boxlist needs to be revised. However, the arrangement and titles are kept as they appeared originally, after sorting by Ingamells.

If you wish to consult any material from this collection, please specify the box number and file title (where applicable). Please note that it is only possible to request 10 files per retrieval. Access will be provided in accordance with the Data Protection Act, 1998.

The material in this archive comprises correspondence, images, research notes, photocopies of published & unpublished material.
